Activity	S01.02 - G&S - HSSE Management & Systems	Version	12.0
Title	Advario HSSE Policy	Page	1 of 1

## HSSE Policy

This Policy applies to Advario BV, the companies directly or indirectly controlled by it ("Advario Group" or "Advario") and all Advario Group Employees globally. It suits our organization's context and HSSE risks and opportunities. HSSE is a core value at Advario. We commit to responsible, sustainable operations protecting people, communities, and the environment. We comply with applicable laws and continuously improve our IMS. Advario HSSE Management leads:

- Ensure this Policy is communicated, implemented, and maintained;
- Align facility policies accordingly;
- Consult with and promote active participation of workers and their representatives in HSSE matters.

Our objectives, in collaboration with our stakeholders, are to conduct all activities in accordance with our HSSE directives and standards, ensuring that business operations do not cause harm to employees, customers, stakeholders, or the environment. We commit to full compliance in handling, transport, and disposal of materials, while protecting people, assets, and critical information, and maintaining transparent communication with regular HSSE reporting.

To meet goals, we set and monitor targets to drive continuous improvement in HSSE. We provide safe working conditions and promote risk awareness by ensuring all personnel receive the necessary training and resources to fulfill their HSSE responsibilities. Further, we work to reduce environmental impact by responsible practices and improve security measures along the entire value chain.

### Safety Principles:

- Health and safety of people and the environment is valued above all else.
- All incidents can be prevented.
- Management at all levels is accountable for safety and leads by example.
- We plan and train for safety.
- Everyone looks out for each other, no matter who they work for.
- Everyone has the authority to STOP any unsafe work.
- Safe behaviour is recognised, acknowledged and reinforced.
- There is zero tolerance for safety breaches.

Management actively supports this Policy and expects the same from all employees, contractors, and stakeholders.

**"If we cannot do it safely or ethically, we don't do it at all".**
